#### **DETAILED ACTION**

#### Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/06/2006 has been entered.

### **Prosecution History Summary**

- Claims 2 and 20 were cancelled.
- Claims 1, 3-19 and 21-25 are pending in the instant application.

Application/Control Number: 10/602,896

Art Unit: 3625

#### Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Page 3

Claims 1 and 3-18 are rejected under 35 U.S.C. 101.

Referring to claims 8-11. Claims 1 and 3-18 do not provide a practical application that produces a useful result. For an invention to be "useful" it must satisfy the utility requirement of section 101. The USPTO's official interpretation of the utility requirement provides that the utility of an invention has to be (i) specific, (ii) substantial and (iii) credible. MPEP § 2107.

The preamble of claim 1 purports utility, but the body of the claim is not commensurate with the scope of the preamble, and does not provide the active steps of "reselling vehicles" necessary to achieve the purported utility.

#### Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 3-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 discloses the limitation "...inputting vehicle information about said vehicle." It is unclear from the language of the claim where said vehicle information is being inputted. The claim limitation should be rewritten to recite, "...inputting vehicle information about said vehicle into said system server."

Claim 1 discloses the limitation "...transmitting said adjusted floor price to said auction." There is insufficient antecedent basis for this limitation in the claim. The examiner is unclear if said auction is the same as the plurality of auctions as set forth previously.

Claim 1 discloses the limitation "...transmitting said adjusted floor price to said auction." It is unclear from the language of the claim which entity is transmitting (i.e., the system server or the user) said adjusted floor price.

Claim 1 discloses the limitation "...notifying said one auction of said vehicle consignment..." It is unclear from the language of the claim which entity is notifying (i.e., the system server or the user) said one auction.

Claims 3-18 are dependent on claim 1 and acquire the deficiencies of claim 1.

Art Unit: 3625

#### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 19-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Boyden (U.S. Patent Application Publication 2003/0036964).

Referring to claims 19-25. Boyden discloses a system comprising a server (Fig. 1, "102"); and at least one user computer, said at least one computer providing access to said system server (Fig. 1, "106"); and at least one auction computer (Fig. 1, "104").

Boyden further discloses a third party database (Fig. 4, "442"), said server communicating with said third party database

The Examiner notes, language that does not limit a claim to a particular structure does not limit the scope of a claim or claim limitation. USPTO personnel are to give claims their broadest reasonable interpretation in light of the supporting disclosure. In re Morris, 127 F.3d 1048, 1054-55, 44 USPQ2d 1023, 1027-28 (Fed. Cir. 1997).

Application/Control Number: 10/602,896

Art Unit: 3625

## Response to Arguments

Page 6

Applicant's arguments, filed 10/6/2006, with respect to claims 1 and 3-18 have been fully considered and are persuasive.

#### Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kar, U.S. Patent Application Publication 2003/0083949 A1, May 1, 2003, discloses a system and method for facilitating consignment and sales of inventory or services.

"Auto dealership revs up high-end effort," Schoettle, Anthony, Indianapolis Business Journal, Volume 21, Number 44, Page 7A, January 8, 2001.

Pub-No: JP02001236448 A, Consignment Sales System Using Internet, August 31, 2001, Kojima, Kenichi

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew S. Gart whose telephone number is 571-272-3955. The examiner can normally be reached on M-F, 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeff Smith can be reached on 571-272-6763. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
